Product Informationen

TANDEM SIDE III

THE DOOR HAS EVERYTHING.

Features

At gentle pressure, the front opens a convenient engagement gap for manual opening.

A gentle push against the front with the hand or even the knee triggers a fully automatic, gentle and harmonious opening process.

Heightadjustment

The individual height adjustment creates the optimum space for every storage item.

Simple idea for kitchen design

The TANDEM side introduces a new level of organisation and clarity to your kitchen. The extra for the door is compatible with all standard tall, wall-mounted and base cabinets and can be retrofitted almost anywhere. The door shelf in combination with shortened shelves optimally enhances your storage space, clarity and access.

Overview and transparency

The division into storage space in the door shelving unit and cabinet itself allows good visibility and transparency throughout. Reducing the size of the removable shelves provides the TANDEM side ample space to disappear into when the cabinet is closed.

All product benefits at a glance

- » Fits beautifully into any kitchen
- » Individually height adjustable shelves for more flexibility
- » Each door shelf with 24 kg
- » Widths from 450 to 600 mm
- » Heights from 600 to 1700 mm

Metal basket

TANDEM side lives along

Adjusting the height of the shelves inside the unit and on the door provides flexibility whenever you need it. The fitting elements can be hung or removed without tools with a single movement of your hand. YouBoxxes can also be fitted in addition to or instead of the trays in the door rack.

It is also available in various shelf shapes and colours, allowing it to be optimally adapted to individual needs and design preferences.

YouBoxx sets

The YouBoxx system makes it easy to create the totally customized storage solution you'll love to use.

There's a choice of 7 YouBoxx sets for the TANDEM side door shelf – ready for any cabinet width, function or value level. Each end-user can now configure their own customized organization system..

They can choose – and change – the vertical positions of YouBoxxes and trays to suit the height of the contents. The YouBoxx support rail is simply hooked onto the frame. It's so easy to set up and change this storage solution with its huge choice of trays and different-sized boxes. Being organized has suddenly become fun.

For a silver or white TANDEM side door shelf with a silver or white finish, Kesseböhmer offers YouBoxx sets with white boxes and a silver- or white-coated carrier rail. For an anthracite coloured door shelf, users might choose anthracite-coloured boxes with an anthracite coloured rail.
